

TRACK MOUNT RAILS

613 • 614 • 618

The
Cost-Effective
Drawer
Solution

Effective and simple, Flipworks® rails provide affordable and full-featured media storage.

TRACK MOUNT RAILS

613 • 614 • 618

PATENTED INNOVATION

Back supports install on the left sides. Adjust for media by sliding forward or backward.

Rails can be cut to length to fit into smaller drawers.

Flipworks® branding. Get credit for including the very best.

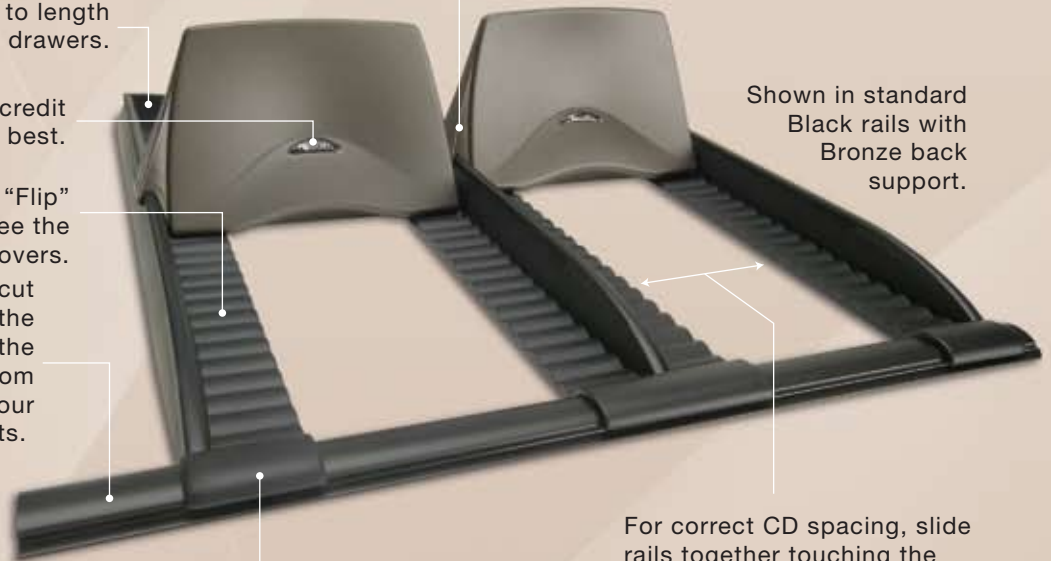

Crowned surfaces make it easy to “Flip” through any collection to see the covers.

To install T-6 track, cut to size, remove the backer and place the track in the bottom corner behind your drawer fronts.

Rails snap on and off easily. They also slide sideways.

Shown in standard Black rails with Bronze back support.

For correct CD spacing, slide rails together touching the back support. For wider media, simply slide the rails apart.

US Patent Number 6,332,546
Canadian Patent Number 2,331,971

The Cost Effective Drawer Solution

- Provides “Flip” access to most popular forms of media stored vertically or horizontally.
- Lower cost makes it more practical to upgrade ordinary drawers to “Media Drawers”.
- T6 Track lets collectors organize or re-organize to suit their needs.

Rails easily adjust to any width media

Pivot back support to adjust
